

A romantic couple is lying on their stomachs on a dark wood floor, looking at each other and smiling. The man is wearing a light blue denim shirt, and the woman is wearing a blue and white striped shirt. They are holding hands and the woman has her hand on the man's forehead.

SEAMLESS SURFACES

2026 CATALOG

WHERE SAFETY BEGINS AT THE GROUND LEVEL

Create a healthier living space with Porfloor SPC surfaces. Hygienic, durable, and designed for everyday life—so your child can play freely, safely, and worry-free.

ONE HOME, SEAMLESS SURFACES

A holistic approach to interior surfaces—Porfloor unifies walls and floors into a continuous design language, engineered for wet areas and built for long-term performance.

NO THRESHOLD, JUST FLOW

Porfloor connects spaces through smooth, threshold-free transitions—blending textures like tile and wood into one cohesive spatial experience.

WATERPROOF BY NATURE, WORRY-FREE BY DESIGN

Porfloor SPC surfaces are engineered to resist water exposure—ensuring long-term dimensional stability and preserving surface integrity even in high-moisture environments.

PURE MATT, PURE COMFORT

Porfloor SPC extra matt surfaces reduce light reflection while enhancing the natural look and feel—creating a soft, refined touch experience for modern interiors.

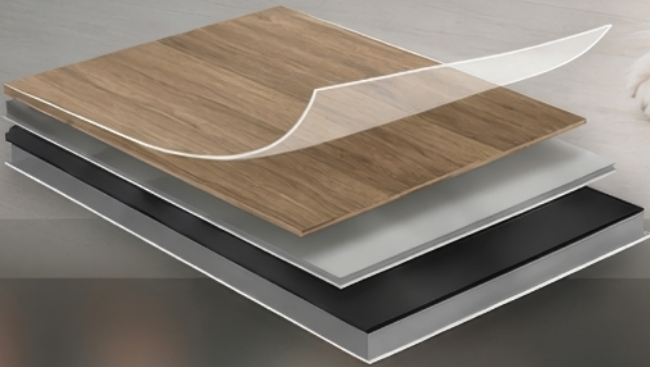

WHERE DESIGN MEETS TOUCH

Feel the nature, With advanced EIR deep emboss technology, Porfloor SPC surfaces replicate the authentic texture of natural materials—bringing a true-to-touch experience into modern living spaces.

SCRATCH LESS, LIVE MORE

Designed for real living, Porfloor SPC offers scratch-resistant performance—so your floors stay protected while your pets move freely and comfortably.

BUILT FOR PRESSURE DESIGNED FOR PERFORMANCE

Porfloor SPC surfaces are engineered to withstand high foot traffic and concentrated loads—maintaining their integrity even under high heels in demanding commercial environments.

MADE FOR MOMENTS THAT MATTER

We help you create warm, safe, and welcoming spaces—where every step feels right and every moment feels better.

ESSENTIAL COLLECTION

Designed for low-traffic areas, the Essential collection offers an optimal balance of thickness and wear layer for everyday comfort. Its compact formats enable fast and efficient installation. A cost-effective solution ideal for bedrooms and private spaces.

LIBERTY-3

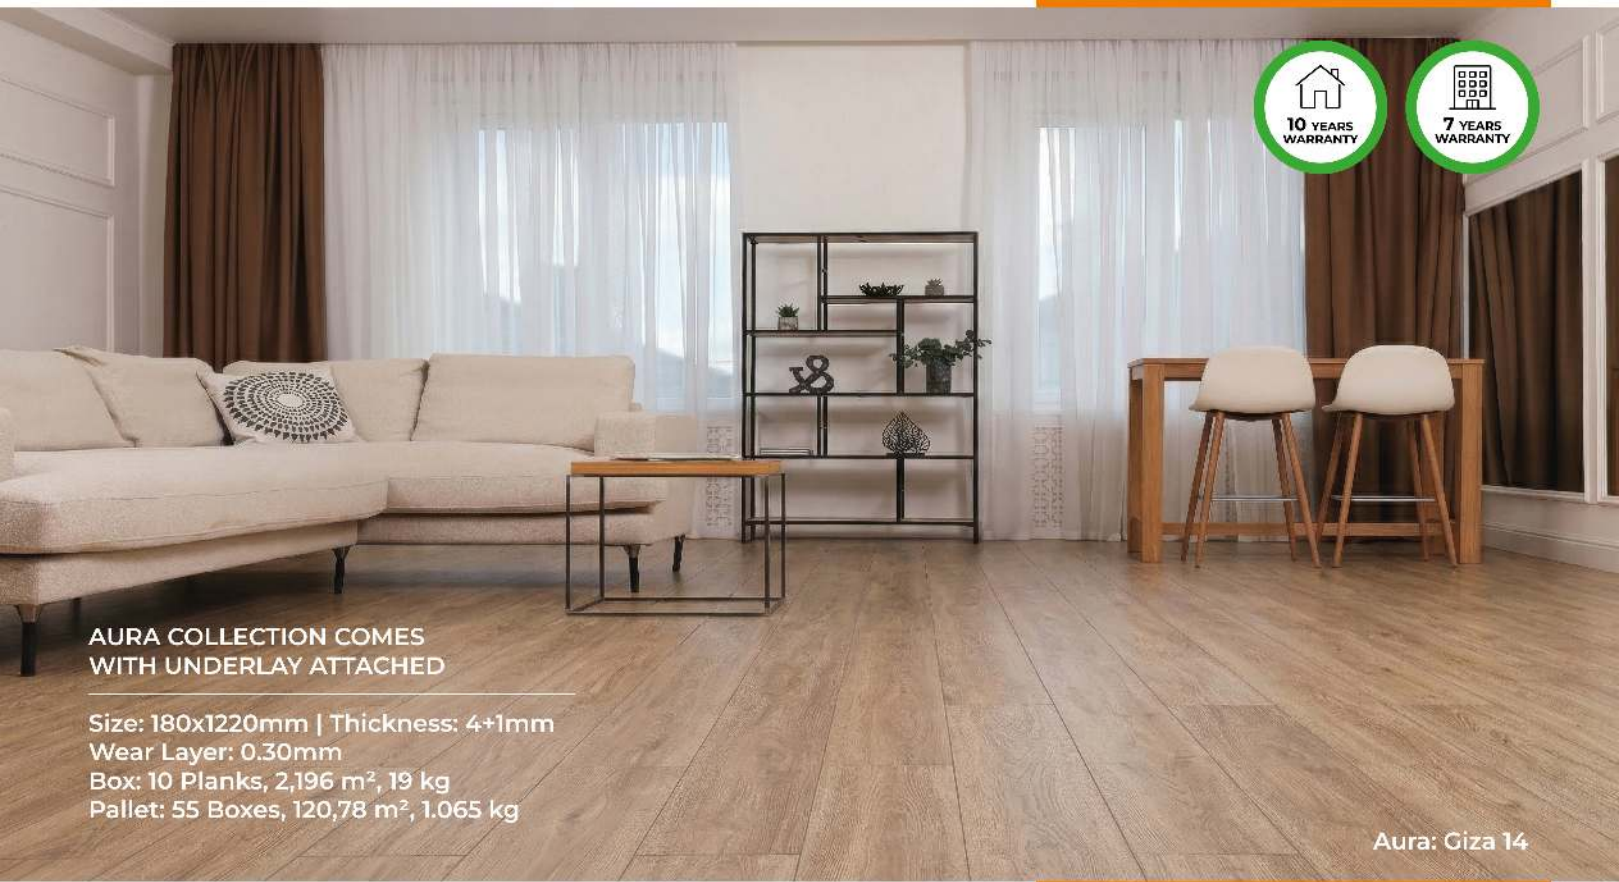

RIO-15

EIFFEL-12

GIZA-21

**AURA COLLECTION COMES
WITH UNDERLAY ATTACHED**

Size: 180x1220mm | Thickness: 4+1mm

Wear Layer: 0.30mm

Box: 10 Planks, 2,196 m², 19 kg

Pallet: 55 Boxes, 120,78 m², 1,065 kg

Aura: Giza 14

AURA COLLECTION

With its narrow plank format, Aura creates a refined and dynamic floor pattern in living spaces. The balanced thickness and wear layer ensure reliable performance for residential use. Its linear design enhances spatial depth and visual continuity.

HORIZON COLLECTION

At 2,7 mm thickness, Horizon wall panels bring the elegance of marble and stone to vertical surfaces. Water-resistant and ideal for bathrooms and kitchens. Large-format panels create clean, seamless, and contemporary wall designs.

HARMONY COLLECTION

Harmony is the key to seamless surfaces, combining floor and wall designs into a unified architectural concept. Coordinated tones and textures ensure visual continuity across spaces. Designed to create a holistic and uninterrupted interior experience.

HARMONY COLLECTION

Size: 965x2800mm | Thickness: 2.7mm
High Gloss / Matt | 80 SLABS 1.230 KG
20 Pallets: 4.323 m², 24.600 kg

ENGINEERED TO CLICK, DESIGNED TO LAST

Powered by the I4F Click System, Porfloor flooring delivers a new standard in installation performance and long-term reliability.

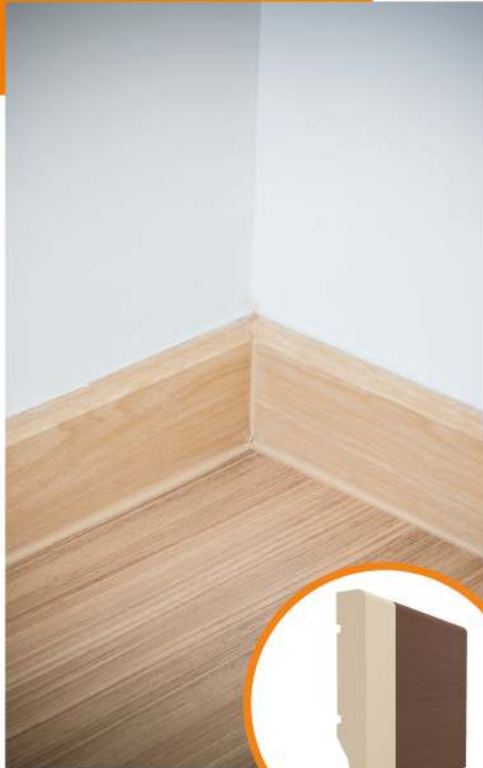

The advanced locking profile enables fast, precise, and glue-free installation, significantly reducing labor time while ensuring consistent results across every project.

Each plank locks seamlessly into place with high mechanical strength and dimensional stability, creating a tight, secure surface that resists movement, gaps, and joint failure over time.

The system is engineered for repeatable accuracy, allowing installers to achieve flawless alignment—even on large-scale applications.

In wet and high-traffic environments, the precision of the I4F locking mechanism enhances surface integrity, supporting Porfloor's vision of continuous, uninterrupted surfaces.

Faster installation, stronger connection, seamless performance.

SEAMLESS BY DESIGN, PERFECT IN DETAIL

Complete the Seamless Surfaces concept with perfectly matched skirting solutions.

Available in refined 8 cm and 10 cm heights, Porfloor skirtings are produced in the exact same decor as the floor, ensuring absolute visual continuity from surface to edge.

By eliminating contrast lines and visual interruptions, Porfloor delivers a fully integrated architectural language—where floors and walls flow as one unified surface. The result is a space that feels cleaner, larger, and more sophisticated, with a level of detail that elevates both residential and commercial interiors.

One material, one texture, one continuous design.

No breaks.
No transitions.
No compromise.

TDS (Technical Data Sheet)

Description	Symbol	Standard	Flooring	Wall Panel
Core Thickness		ISO 24337	4 mm & 5 mm	2,7 mm & 4 mm
Wear Layer Thickness		N/A	0,15mm-0,30mm-0,55 mm	
Classification (Level of Use)		EN 16511	Class 21, Class 33, Class 34	
Weight Per SQM		EN ISO 23997	4mm:(8.30 kg/m ²) 5mm:(10.40 kg/m ²)	2.7mm:(5,4 Kg/m ²) 4mm:(8 kg/m ²)
Underlayment (Optional)		N/A	+1 mm IXPE	
Surface UV Protection		N/A	Yes	Yes
V-Groove		N/A	Micro V Becel	
Dimensional Stability		EN-ISO 23999	≤0,15%	≤0,25%
Reaction to Fire (and Smoke Production)		EN 13501-1	Bfl-s1	Bfl-s1
Residual Indentation		ISO 24343-1	Class 33 - 0,1 mm ≤ ri ≤ 0,2 mm Class 34 - 0,1 mm ≤ ri ≤ 0,15 mm	
Effect of furniture leg		EN ISO 16581	No Visible Damage	
Castor Chair		EN ISO 4918(b)	After 25,000 cycles: Delamination None Appearance "Slight Change"	
Locking Strength		ISO 24334	Class 33 - Long Side ≥ 1,0 kN/m Class 33 -Short Side ≥ 1,0 kN/m Class 34 - Long Side ≥ 1,0 kN/m Class 34 -Short Side ≥ 3,5 kN/m	
Colour Fastness to Light		ISO 105-B02, Method 3	≥ Grade 6	≥ Grade 6
Resistance to Staining (Grade per Group)		EN 438-2: Group 1 only 10 min	Groups 1 and 2 : Grade 5 Group 3 : Grade 4	Group 1 -3:Class 5
Micro Scratch Resistance		EN 16094: Procedure A	Class 33 : ≤ MSR-A2 I ≤ 1,5 unit changel at 60° Class 34 : ≤ MSR-A2 I ≤ 1 unit changel at 60°	MSR-A2
Impact Resistance (Big Ball)		EN 13329 Annex F	Class 33 ≥ 1600 mm Class 34 ≥ 1800 mm	>1800 mm
Abrasion / Wear Resistance		ISO 24338: Procedure A	0,15 mm ≥ 1000 revulation 0,30 mm ≥ 2000 revulation 0,55 mm ≥ 4000 revulation	
Core Thickness (t)		EN 17539	tmax - tmin ≤ 0,50 mm (for panels without preattached underlay) tmax - tmin ≤ 0,80 mm (for panels with preattached underlay)	
Thermal Resistance		EN 12664	0.0165 m ² K/W	0.0165 m ² K/W
Slip Resistance (Dry)		EN 13893	Class DS: Coefficient of Friction ≥0.30	
Static Electrical Charge		EN 1815	≤2kV	≤2kV
Formaldehyde Emission		EN 717-1: 2016	Class E1: Release ≤0,022mg/m ³	Class E1:Release ≤0,125 mg/m ³
Pentaklorofenil (PCP)		CEN / TR 14823	Does not contain PCP	Does not contain PCP
Underfloor Heating System		EN 12664	Suitable for max 28 °C material temperature	
STC Acoustic Sound Insulation with 1 mm IXPE Mattress		ASTM 492- 09	STC 52	
IIC Acoustic Sound Insulation with 1 mm IXPE Mattress		ASTM E 989-18	STC 55	
Antibacterial Activity		ISO 22196		Effective against E.coli

**DESIGNED FOR THE
WAY YOU LIVE**

ABOUT US

At Porfloor, we redefine living spaces through Seamless Surfaces—a unified design approach where floors and walls flow as one continuous expression. Inspired by natural textures and engineered for real life, our surfaces eliminate boundaries, simplify installation, and elevate everyday comfort. From wet areas to living spaces, we create environments that are visually coherent, technically reliable, and effortlessly modern.
